FIVE-YEAR PERMITS FOR THE CATTLEMEN

retary Wilson Through the Gem State.

OGDEN, Sept. 5.—The complaints made Idaho sheepmen and cattlemen to lames Wilson, secretary of agriculture, during his recent visit to the northern were of a trivial nature and will probably be adjusted to the entire satisfaction of the forestry department and he Idaho citizens, according to District

the Idaho citizens, according to District Forester Clyde Leavitt, who has returned to Ogden, after accompanying Secretary Wilson through Idaho.

The zource of the grievances laid hefore Secretary Wilson originated from the regulations of the forestry department, Many of the farmers of Idaho complained that they were being limited to a one year's permit for grazing taeir sheep and cattle, and that they had no assurance from the forestry department that they could obtain the tangs for the following season. This did not have a tendency to encourage the stock men that as zoon as an extimate can be obtained of the number of cattle to be grazed each year and the area of grazing lands under forestry dominion, then a dee-year permit will be allowed to the cattle men instead of the annual permits now issued.

Instead of changes to be made in the present boundary lines by which it was at first believed the forestry reserves in Idaho would have to be reduced in area, it is now probable that more territory will be added to some of the reserves. Two meetings with the farmers and stockmen were held at Pocatello and Mackay. The heavy rainstorm prevented Secretary Wilson will make a trip through Colorado and Wy-oming.

BODY OF E. C. BLAYLOCK MAY BE DISINTERRED

Special to The Tribune.

OGDEN, Sept. 5.—It is probable that the remains of E. C. Blaylock, who was buried at the City cemetery yesterday, will be disinterred and sent back to his some in Shoshone, idaho, for burial. After being delayed by wash-outs, the step-father of the young man arrived here to-day, and to his surprise found that the body had been laid in its last resting place. This fact was telegraphed to the young man's mother, and until a reply is received no action will be taken.

The step-father said this afternoon that he had wired to the chief of police, requesting that the body be held here until his arrival, but through some mistake the underlaker was not notified.

Blaylock received injuries in a gasoline explosion at the pickle factory a week ago which resulted in his death a few days later.

OGDEN, Sept. 5.—James M. Fetherolf, planting inspector of forest service district 4. has returned to Ogden after an inspection trip of the Wasarch nursery. He reports that the results of broadcast sowing, direct sowing in spots and field planting of different species, on the tracts best suited to each method, have been successful. This is only in part attributed to the frequent storms during this month. He also states that the sursery has never been in such excelent condition.

A conservative inventory of the stock A conservative inventory of the stock on hand at this time shows that there are 2,162,000 one-year seedlings, 359,700 two-year seedlings and 291,351 transplants—a total of 2,813,052 plants. Of these 102,200 will be ready for field planting the coming fall. Plans for the disposal of this stock have been drawn up.

BRIGHT'S DISEASE

That chronic Bright's Disease is now being cured by treatment that reduces in-finammation in the kidneys is beginning to be generally known.

We copy the following from the San Francisco Bolletin June 22, 1998.

"The recovery is reported of Mr. Z. Lawton of 284 Fifth avenue. San Francisco. The case is especially interesting due to the fact that books declare chronic Bright's Disease incurable and five city physicians had passed on and diagnosed the case. The usual symptoms found in extreme cases were reported—excessive dropsy, sularged heart and towards the last the patient could only sleep sitting up, and for six weeks he slept in a chair. Lawton had a coustin, Mrs. W. E. Hoover of Auburn, who also had an savanced case of Bright's Disease. She had been tapped three times when she heard of Fulton's Renal Compound and made a fine frecovery. This interested Lawton in the treatment and it resulted in his recovery also. "It is a Mason, member of Excelsior lodge, and many members will recollect his serious predicament and that they thought they would be called on to pass him over."

Parties desiring to know more of this treatment cange till literature by addressing the John J. Fulton company, 212 First street, San Francisco, Cal.

stunt that adds materially to the song by the pretty little English woman.

Then there is Julius Tannen, menologuist, wit and raconteur, the best in his line that has appeared upon the Orpheum stage. His act is not overdone, and what he does is done so well that he was compelled to respond to the hearty encore given him upon his meritorious monologue. Mr. Tannen is so easy, so unaffected, and his points are so well put that he has the audience with him all the time he is upon the stage.

In the Three Donals is seen perfect specimens of men who are marvels in their herculean stunt. Feats of strength are shown in their act that it would be difficult to equal, let alone excel.

Ruby Raymond and company have an offering that is exceedingly clever. This offering is "The Street Urohin." It is a new act and in it opportunity is given to introduce songs that are catchy, and buck, eccentric and acrobatic dancing such as seldom is seen here. Their act taught with the capacity audience.

The McGradys, world's famous arrow shooters and equilibrists, made their first appearance here. The work is neat and clean, the arrow shooting is good and in the finale, when in a balancing act, an arrow pierces the bull's-eye and old glery and the flags of nations fall in graceful folds, the effect is very pretty.

These, with the Kinodrome's moving rictures and the splendid music by Prof. Willard Wiehe's orchestra, make up a first-class bill which will run the week with daily matinees.

It was a happy thought when the management of the Grand theater selected Edwin Milton Royle's clever stony, "The Squaw Man." as the second vehicle for bringing Willard Mack and Blanche Douglas before the patrons of that popular playhouse. The Sunday night audience that greeted the members of the popular stock company was unstinting in its praise of the efforts of Miss Douglas and Mr. Mack and their very able support, which has been augmented by the addition of several players new to Salt Lake audiences.

For those who saw William Faversham's production of the local playweight's clever composition, the present ation of "The Squaw Man" at the Grand Sunday night lost none of its charm. With enough of pathos and sentiment, the story is clothed in a truly western garb that pleases a home audience, and the planting of the theme right here in Utah has added greatly to the local interest displayed in this very clever but unique love story.
